

LEGAL DOCUMENTS

Think Therapy is able to help you with legal documents suitable for your clinic.

We can organise -

- Leases and licenses for rental of premises
- Employment contracts
- Partnership agreements

These documents are written specifically with manual therapists in mind rather than generic 'off the peg' documents you can buy that are written in very general terms.

Our lawyers are able to advise you at length on your requirements and create documents tailored to your needs.

Too many therapists rent premises or even employ people on an 'ad hoc' basis when they should really be controlling their business needs through written agreements. For instance - have you considered putting restrictive clauses in your employment contracts to stop employees leaving and setting up shop 100 yards down the road - and taking your patients with them?

If you want to discuss your needs with us just e-mail us with a contact phone number and we will contact you and discuss your needs - info@thinktherapy.co.uk
